## La nuova visione della ceramica

The new ceramic concept

La Comfort G fa parte di un progetto completo nato per dare la possibilità di abbinare materiali diversi combinabili per nuance di colore.

Cementine, resina, legno, pietra e gesso possono essere singoli protagonisti degli spazi di arredo, oppure mixati tra loro per realizzare un gioco continuo di fusioni e di trasformazioni, unificate dalle tonalità cromatiche.

Formati e superfici bene si adattano a un'idea di abitare contemporaneo e ridisegnano l'ambiente donando un senso pieno di completezza e armonia.

Comfort G is part of a comprehensive project allowing different materials with complementary shades of colors to be mixed-and-matched together.

Cementine, resin, wood, stone and gypsum can be individual protagonists of a room setting, or can be combined to create a never-ending alternation of blends and transformations linked by the same color scheme.

Sizes and surface textures are well-suited to a contemporary furnishing style and reshape the environment by providing an overall sense of completeness and harmony.
